For More Information: www.tcipowder.com

TCI Product Series

1000 Series- Low Cure

- Formulated for heat sensitive substrates such as MDF, FRP, SMC, etc.
- Minimal substrate preheat is required for good application and film build properties
- Cure range of 240° - 270°F
- Excellent physical and chemical resistant properties, not recommended for exterior applications

2000 Series- Acrylic

- Formulated for highly decorative applications requiring superior smoothness and exterior durability
- Excellent hardness, chemical resistance, and overbake stability
- Broad formulating range and can be used for interior or exterior applications
- Ideally suited for automotive parts, appliances, recreational equipment and hardware

3000 Series- High Temperature

- Formulated with heat resistant silicon resin chemistry
- Excellent adhesion, color, and gloss retention in elevated temperature applications
- Formulated to withstand continuous and intermittent service at elevated temperatures on ferrous and non-ferrous substrates
- Ideally suited for barbecue grills, smokers, boilers, pressure tanks, & motor housings

4000 Series- Specialty

- Developed with TCI's proprietary resin technology
- Provides a broad formulating range for decorative or functional applications that are custom formulated to our customers specifications
- Engineered to meet demanding application and performance requirements when conventional technology will not work
- Ideal applications include pultrusion, SMC, and other ferrous and non-ferrous substrates

5000 Series- HAA (TGIC-Free)

- Formulated to meet many decorative requirements for gloss, smoothness, color and weather-ability
- Can provide solutions where TGIC containing polyester or urethane polyesters are not permitted
- Excellent transfer efficiency and reclaim properties, not suited for high film build applications
- Ideal applications include interior/exterior furniture, lawn & garden, appliances, machinery, sports and playground & park equipment

6000 Series- Hybrid

- Has a good balance of physical properties, smoothness and gloss ranges
- Has excellent application characteristics that allow for lower film thickness when required
- Best suited for interior application and delivers excellent flexibility, abrasion and mar resistance
- Typical uses include automotive (functional), exercise equipment, power tools, office furniture, shelving and display racks

7000 Series- Epoxy

- Best suited for applications requiring superior adhesion, corrosion and chemical resistance
- Ideally suited for interior applications as they can rapidly lose gloss and begin to chalk when exposed to sunlight
- Excellent physical properties such as hardness and flexibility
- Typical uses include automotive underbody, corrosion/chemical resistant primers, interior lighting, shelving/racking, and material handling equipment

8000 Series- Urethane

- Can meet many decorative requirements for gloss, smoothness, color, and weather-ability
- Formulated for use in interior and exterior thin film applications
- Provides excellent film properties such as hardness, adhesion, flexibility, chemical and corrosion resistance
- Typical applications include lighting fixtures, automotive trim, interior auto components, home appliances, and interior/exterior furniture

9000 Series- TGIC Polyester

- Are considered the workhorse of the industry with the broadest formulating range for color, gloss, and finish
- Can be used in interior or exterior applications
- Provides excellent flexibility, impact resistance, overbake stability, and application properties
- Typical uses include aluminum extrusions, building products, exercise & playground equipment, HVAC, lawn & garden, light fixtures, heavy duty machinery & equipment

10000 Series- Super Durable TGIC

- Formulated using high performance resins and pigments to meet the demand requirements of specifications such as AAMA 2604 & Qualicoat Class 2
- Available in a wide selection of colors and gloss levels
- Designed for exterior applications, provides excellent film and performance properties against UV degradation, corrosion resistance, impact and flexibility
- Applications may include windows, doors, storefronts, playground equipment, cladding components, park furniture, fences and railings, light fixtures & poles, and metal roofing

11000 Series- Fluoropolymer

- Formulated to meet AAMA 2605 & Qualicoat Class 3 specifications using fluoropolymer resin chemistry, products in this series have the highest exterior durability in the industry
- Has superior gloss and color retention and come in a variety of gloss levels and colors
- Proper pretreatment of the substrate is critical to ensure product performance
- Ideally suited for curtain wall, window, storefront, building panels & siding, and metal roofing

Stocked and Ready to Ship

TCI stocks hundreds of products available in a variety of colors, textures, and effects ready to ship to you at a moment's notice. Along with the products in this color card, other stock color options include TCI's TruDurance Architectural Powder Coatings, which meet AAMA & Qualicoat specifications, as well as 150+ Super Durable Polyester RAL colors.

TCI has developed innovative technology platforms that offer our customers a complete range of powder coating options designed to give them the performance, quality, and value they have come to know with TCI. Our product portfolio is perfectly suited for those customers & markets that require a durable yet beautiful powder coating finish.

TCI's product lines include TruBond Bonded Metallic Coatings, TruZinc Primer Coatings, TruHammer Hammertone Coatings, TruErase White Board Coatings, TruClean ST Antimicrobial Coatings, TruPeel Orange Peel Coatings, as well as TruDurance and TruAnodize Architectural Powder Coatings.

Visit TCI's Online Color Selector to get a digital view of our portfolio of colors. Select the color, environment, and finish to find the perfect product for your needs.

PRODUCT FORMULA LEGEND

First Number = Resin Type, 9801-1000 (example)

- | | |
|----------------------|-------------------------|
| 1 = Low Cure | 7 = Epoxy |
| 2 = Acrylic | 8 = Urethane |
| 3 = High Temperature | 9 = TGIC Polyester |
| 4 = Specialty | 10 = Super Durable TGIC |
| 5 = HAA (TGIC-Free) | 11 = Fluoropolymer |
| 6 = Hybrids | |

Second Number = 60° Gloss Reading, 9801-1000 (example)

- | | |
|-----------|-----------|
| 0 = 0-9 | 5 = 50-59 |
| 1 = 10-19 | 6 = 60-69 |
| 2 = 20-29 | 7 = 70-79 |
| 3 = 30-39 | 8 = 80-89 |
| 4 = 40-49 | 9 = 90+ |

Third Number = Cure Response, 9801-1000 (example)

Time at metal temp for full cure

- | | |
|----------------------|-------------------------|
| 0 = 12 min. @ 400° F | 5 = 10 min. @ 300° F |
| 1 = 10 min. @ 400° F | 6 = 10 min. @ 275° F |
| 2 = 10 min. @ 375° F | 7 = 10 min. @ 250° F |
| 3 = 10 min. @ 350° F | 8 = Fast Cure - See TDS |
| 4 = 10 min. @ 325° F | for recommended cure |

Fourth Number = Surface Appearance, 9801-1000 (example)

- | | |
|-----------------|-----------------|
| 0 = Smooth | 4 = Vein |
| 1 = Metallic | 5 = Hammertone |
| 2 = Sand | 6 = Multi-Color |
| 3 = Orange Peel | 7 = Wrinkle |

Fifth Series = RAL Color System, 9801-1000 (example)

- | | |
|------------------------|-----------------------|
| 0 = Clears & Metallics | 5 = Blues |
| 1 = Yellows & Beiges | 6 = Greens |
| 2 = Oranges | 7 = Grays |
| 3 = Reds | 8 = Browns |
| 4 = Violets | 9 = Blacks and Whites |

Clear Coat, Fill Quantities, and Other Variations

● = Clear Coat Recommended for Maximum Durability

■ = 45 lb Fill Quantity

The Value of
168[®] The Value of 168 is the corporate philosophy of RPM. This figure, often cited by RPM's founder, Frank C. Sullivan, represents the number of hours in a week.

On a deeper level, it serves to remind RPM and its subsidiaries of his belief that they are born with two great gifts: life and time to do something meaningful. The Value of 168 signifies RPM's enduring commitment to fellow employees, subsidiaries, customers, and stockholders.

TCI is a proud subsidiary of RPM International Inc. RPM is a multinational holding company, founded in 1947, with an entrepreneurial operating philosophy structured into subsidiaries. These subsidiaries manufacture and market various specialty coating brands and chemical product lines. RPM has 124 manufacturing facilities and employs approximately 14,600 people worldwide.
